

New Tenants in GreenWings Offices

Press Release 27.4.2015

New Tenants in GreenWings Offices

OKRE Development informs that the lease out of GreenWings Offices at 17 Stycznia 48 is nearing its final.

In the first quarter of the year additional leases have been signed with ADH-Soft, Fossil, Horizon New Media, PM Sport and Rawaki.

Adding up with existing leases this implies that the GreenWings premises are now leased for almost 80%.

Reflecting on the newly signed leases Ronnie Richardson, President of OKRE Development said “ from the start onwards we had a clear vision how the building had to be designed so that it would stand out from other Office buildings allowing it to become attractive to tenants and how the to be written leases had to be conceived. It seems that what we had in mind has met with expectations of our tenants. This technical and marketing approach is what we will be continuing in our new developments.”
