

Air Products is moving to GreenWings Offices

DTZ advised Air Products on their lease of 380 sq m of office space in GreenWings Offices, located close to Warsaw Chopin Airport.

Air Products is one of the biggest international suppliers of atmospheric industrial gases. Air Products is headquartered in the United States and has more than 50 offices worldwide, employing more than 21 000 people.

GreenWings Office is the new project from OKRE Development. The building holds a BREEAM certificate at the level of “very good” and received its permission for use in May 2014. The first tenants already moved into the building in June.

*Our Client chose GreenWings primarily because of the ecological solutions offered by the building and amenities for occupiers such as the modern conference center, says **Monika Brzoska**, Consultant, Office Agency (Tenant Representation), DTZ.*

Air Products will move to their new headquarters in Q4 2014.

DTZ Poland provides occupiers and investors with industry leading, end-to-end property solutions comprised of leasing agency and brokerage, integrated property and facilities management, research, capital markets, project management, investment and asset management and valuation services.
